Something Personal - NYFF Fundraiser

Some of you may know this, some may not... I serve on the board of a non-profit that my pals and I started 10 years ago called “Not Your Father’s Foundation (NYFF)”. We have grown into something noteworthy, Donating over \$100,000 in that time. It’s incredible. (Yes, that is my old man & me pictured).

We have an event coming up in a month and I am simply plugging the event!! For those local, please come! We love new friends!

For those away, if you have the ability to donate we would appreciate anything. Please see below link for information on the event and please call me if you are curious as to what we do!

Riddle me this...

I'm going heavy "Thinker" this month... sorry about it!

A few Riddles to start the week:

1. What is seen in the middle of March and April that can't be seen at the beginning or end of either month?
2. I come from a mine and get surrounded by wood always. Everyone uses me. What am I?
3. First you eat me, then you get eaten. What am I?
4. I have keys, but no locks and space, and no rooms. You can enter, but you can't go outside. What am I?

As always... shoot me a note if you need help with the answers!!

Project Spotlight - First Job of the 2024!!

Project Overview:

Our crew just finished up a two week job in VA that, admittedly, had some ups and downs. We came onto site without experience in VA and little relationship with the local contractors. The contractors did not fully understand our process and left the roads in “interesting“ positions for us to Recycle. However, as all things in construction go, we worked WITH (not against) our Contractor pals and navigated the job sites together. This teamwork led to satisfied clients, homeowners, AND (believe it or not) Contractors.

The pictures above are great indicators of the process with two agg sizes. The picture on the left is recycled surface course; right is recycled binder course.
